

Your Dollars Are Already Spoken For

Now you decide what they will say.

If you pay federal income tax, part of your money is **already set aside** for the government. Starting **January 1, 2027**, you can send up to **\$1,700** of it (**\$3,400** for married couples) to help a student instead.

Two Paths for the Same Dollars

Tax money
you already owe

PATH 1 | THE USUAL WAY

It goes to Washington

It joins general federal spending.

PATH 2 | THE NEW CHOICE

It becomes a scholarship

It helps a family afford Christian education, like at IRCS.

Not a new cost. A new choice.

Three Simple Steps

1

You give

to an approved scholarship group, called an SGO.

2

Families receive

The SGO turns gifts into scholarships.

3

Your tax bill shrinks

The gift comes off what you owe.

Not a Discount. A Full Swap.

A typical donation saves a small slice

A \$1,700 gift saves about **\$374**.

This tax credit takes off the whole gift

A \$1,700 gift means **\$1,700 less** in tax.

Tax credit: money taken straight off the tax you owe.

SGO: a Scholarship Granting Organization. It collects gifts and awards scholarships.

What you owe: your federal income tax for the year, before any refund.

What This Means for IRCS

More families can come

96 of 100 children are expected to qualify. Families earning up to 3 times the typical income in their area can apply.

Our mission moves faster

More families who share our values can choose IRCS, strengthening our academics, arts, athletics, and spiritual life.

What Scholarships Pay For

MOSTLY Tuition

Special needs help

The Simple Truth

- i** Your gift goes to an approved SGO, **not directly to IRCS**. IRCS will notify you soon of our chosen Scholarship Granting Organization (SGO).
- x** You **cannot choose a student**, including your own child.
- i** You must **owe federal income tax** for the credit to help you.
- ✓** It is always **your choice**, and your giving stays **private**.
- i** This is not tax advice. Please talk with a tax professional.

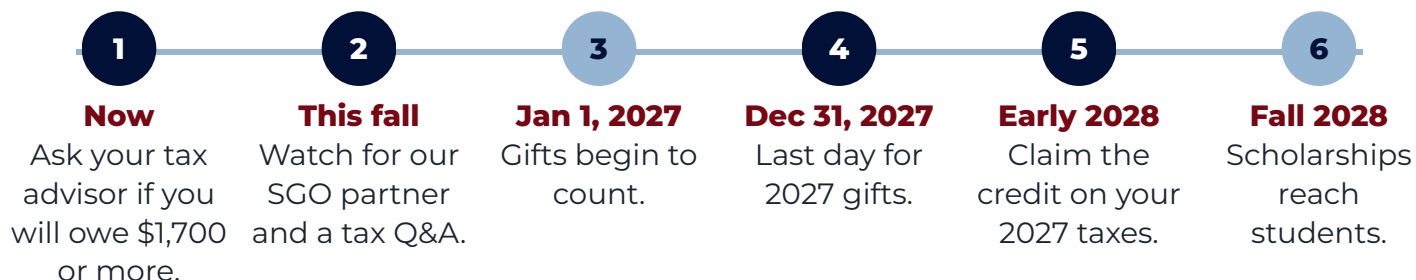

Ways You Might Give

One gift Give once in January, up to \$1,700.

\$142 a month Small, steady gifts add up to \$1,700 by December 31.

Owe less? **Owe \$900?** Give \$900. Or give \$1,700 and use the extra \$800 on taxes in later years, up to 5 years.

Your Timeline

**Your dollars are already spoken for.
Now you get to decide what they will say.**
